Ask how you can help.

We know the economy is tight. It is not always about money, so ask what other ways you could help. The more who are involved in giving and helping – the lighter the load will be for everyone.

Join in and help make this Dream come true!

In order to support a complete rink facility, the Government of Ontario recommends a population 20,000. We are currently at 6600, significantly short of the recommended threshold, but the need for local community facilities is no less than a bigger town. The recommended MURF facility will support the activities of the entire population.

The Optimist of Puslinch have identified this need for years and have taken the steps to apply for all grants and funding available. So far they have received generous support from several sources\*\*, but subject to a deadline period that will pass fast.

Make this ~~Dream~~ <sup>MURF\*</sup> come true!

**MURF\***  
**Make this ~~Dream~~ come true!**

The centre of this new complex is an artificial ice surface which will be complete with rink boards, players and penalty benches, and all covered with a protective steel roof. The sides and one end of the ice surface are open. This will mean skaters using the ice pad in winter will have a safe smooth ice surface to skate on while still enjoying the benefits of Canadian outdoor living. The ice will be available to residents for the months of December through March.

The open air, covered area, approximately 80ft x 160ft will be available for a multitude of uses for the balance of the year. Some of the sporting activities will be basketball and roller skating to name a few. The facility will be ideal for use at the "Fall Fair" for whatever the Fair Board so chooses. There is a plan to provide the space for the use of a local farmers market in the summer months and is ideal for large outdoor gatherings and events. The washroom and change room facilities are a much needed requirement for users of the park year round.

In addition to the ice pad the new complex will house a much needed "indoor gymnasium", which will be available to groups and individuals to hold physical activities for residents of all ages, year round.

Rendering of the new Facility

An existing facility in Magnetawan
